Independent Auditor's Report

The Board of Trustees
Department of Community Health:

Report on the Schedule of Employer Allocations and Schedule of Other Postemployment Benefit (OPEB) Amounts by Employer

We have audited the accompanying schedule of employer allocations of the Department of Community Health's Georgia School Personnel Postemployment Benefit Fund (Plan) as of and for the years ended June 30, 2016 and June 30, 2017 and related notes. We have also audited the totals for the columns titled net OPEB liability, total deferred outflows of resources, total deferred inflows of resources and total employer OPEB expense (specified column totals) included in the accompanying schedule of OPEB amounts by employer (collectively the Schedules) of the Plan as of and for the year ended June 30, 2017 and the net OPEB liability as of June 30, 2016 and related notes.

Management's Responsibility for the Schedules

Management is responsible for the preparation and fair presentation of the Schedules in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of the Schedule that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on the schedule of employer allocations and specified column totals included in the schedule of OPEB amounts by employer based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule of employer allocations and specified column totals included in the schedule of OPEB amounts by employer are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the schedule of employer allocations and specified column totals included in the schedule of OPEB amounts by employer. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the schedule of employer allocations and specified column totals included in the schedule of OPEB amounts by employer, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the schedule of employer allocations and specified column totals included in the schedule of OPEB amounts by employer in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the schedule of employer allocations and specified column totals included in the schedule of OPEB amounts by employer.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the Schedules referred to above present fairly, in all material respects, the employer allocations and net OPEB liability, total deferred outflows of resources, total deferred inflows of resources, and total employer OPEB expense for the total of all participating entities for the Plan as of and for the year ended June 30, 2017 and net OPEB liability as of June 30, 2016, in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As described in Note 2 to the schedules, in 2017, the Department of Community Health adopted new accounting guidance, Governmental Accounting Standards Board (GASB) Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Plans Other than Pension*. Our opinions are not modified with respect to this matter.

As discussed in Note 3 to the Schedules, the Department of Community Health restated previously reported components of the collective net OPEB liability to correct a misstatement. Our opinions are not modified with respect to this matter.

Other Matters

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of the State of Georgia's Comprehensive Annual Financial Report (CAFR), which includes the Department of Community Health's School Personnel Postemployment Benefit Fund, as of and for the year ended June 30, 2017 and our report thereon, dated December 28, 2017, expressed an unmodified opinion on those financial statements.

Restriction on Use

Our report is intended solely for the information and use of the Plan's management, the Board of Trustees, Plan employers and their auditors and is not intended to be and should not be used by anyone other than these specified parties.

Respectfully submitted,

Greg S. Griffin
State Auditor

NOTE 1 – PLAN DESCRIPTION

The Georgia School Personnel Postemployment Benefit Fund (School OPEB Fund) is a cost-sharing multiple-employer defined benefit postemployment healthcare plan as defined in Governmental Accounting Standards Board (GASB) Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. Certified teachers and non-certified public school employees as defined in §20-2-875 of the *Official Code of Georgia Annotated* (O.C.G.A.) are provided Other Post-Employment Benefits (OPEB) through the School OPEB Fund. The School OPEB Fund is reported as an employee benefit trust fund and is administered by the Board of Community Health (Board) that is comprised of nine members, including two former State of Georgia employees and seven industry professionals. Title 20 of the O.C.G.A. assigns the authority to establish and amend the benefit terms of the group health plan to the Board.

The School OPEB Fund provides healthcare benefits for retirees and their dependents due under the group health plan for public school teachers, including librarians, other certified employees of public schools, regional educational service agencies and non-certified public school employees. Retiree medical eligibility is attained when an employee retires and is immediately eligible to draw a retirement annuity from Employees' Retirement System (ERS), Georgia Judicial Retirement System (JRS), Legislative Retirement System (LRS), Teachers Retirement System (TRS) or Public School Employees Retirement System (PSERS). If elected, dependent coverage starts on the same day as retiree coverage. Medicare-eligible retirees are offered Standard and Premium Medicare Advantage plan options. Non-Medicare eligible retiree plan options include Health Reimbursement Arrangement (HRA), Health Maintenance Organization (HMO) and a High Deductible Health Plan (HDHP). The School OPEB Fund also pays for administrative expenses of the fund. By law, no other use of the assets of the School OPEB Fund is permitted.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Governmental Accounting Standards Board (GASB) Statement No. 75

Employers participating in the School OPEB Fund are required to report OPEB information in their financial statements for fiscal periods beginning on or after June 15, 2017, in accordance with GASB Statement 75, *Accounting and Financial Reporting for Postemployment Benefit Plans other than Pensions*.

The requirements of the Statement incorporate provisions intended to reflect the effects of transactions and events related to OPEB in the measurement of employer liabilities for OPEB and recognition of OPEB expense and deferred outflows of resources and deferred inflows of resources related to OPEB.

Basis of Presentation

The Schedule of Employer Allocations and Schedule of OPEB Amounts by Employer (collectively, the Schedules) present amounts that are elements of the financial statements of the School OPEB Fund or its participating employers. Accordingly, they do not purport to be a complete presentation of the financial position or changes in financial position of the School OPEB Fund. The amounts presented in the Schedules are prepared in accordance with U.S. generally accepted accounting principles. Such preparation requires management of the School OPEB Fund to make a number of estimates and assumptions relating to the reported amounts. Due to the inherent nature of these estimates, actual results could differ from those estimates.

The Schedule of OPEB Amounts by Employer does not contain deferred outflows of resources or deferred inflows of resources related to contributions made by employers after the measurement date. Such information will be provided by the Department of Community Health (DCH) to the participating employers and available on the DCH website.

Allocation Methodology

GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefit Plans Other Than Pensions*, requires participating employers in the School OPEB Fund to recognize their proportionate share of the collective net OPEB liability, collective deferred outflows of resources, collective deferred inflows of resources, and collective OPEB expense. The employer allocation percentages presented in the Schedule of Employer Allocations and applied to amounts presented in the Schedule of OPEB Amounts by Employer are based on the ratio of each employer's contribution to the School OPEB Fund during the measurement periods July 1, 2015 through June 30, 2016 for the fiscal year 2016 and July 1, 2016 through June 30, 2017 for the fiscal year 2017. Consistent with GASB Statement No. 75, paragraph 59(a), employer proportions are determined as a measure of the proportionate relationship of the employer to all employers consistent with the manner in which contributions to the OPEB plan are determined. Employer contribution amounts billed by the State Health Benefit Plan are used as the basis to allocate the employer's contribution to the School OPEB Fund. Contributions from the employers contributing entities are recognized when due, based on statutory requirements and is substantially funded on a pay-as-you-go basis; that is, annual cost of providing benefits will be financed in the same year as claims occur.

Total contributions presented in the schedule of employer allocations to those reported in the School OPEB Fund statement of changes in fiduciary net position for the years ended June 30, 2016 and June 30, 2017 are as follows (amounts in thousands):

	<u>FY16</u>	<u>FY17</u>	<u>FY17 Restated</u>
Total employer contributions per audited financial statements	\$ 418,667	\$ 552,251	\$ 521,408 ^(a)

NOTE 3 – COLLECTIVE NET OPEB LIABILITY AND ACTUARIAL ASSUMPTIONS AND METHODS

The components of the collective net OPEB liability of the participating employers at June 30, 2016 and June 30, 2017 were as follows (amounts in thousands):

	<u>FY16</u>	<u>FY16 Restated</u>	<u>FY17</u>	<u>FY17 Restated</u>
Total OPEB liability	\$ 15,147,674	\$ 14,915,698 ^(b)	\$ 14,508,999	\$ 14,279,644 ^(b)
Plan fiduciary net position	<u>95,412</u>	<u>95,412</u>	<u>260,533</u>	<u>229,684^(a)</u>
Employers' net OPEB liability	<u>\$ 15,052,262</u>	<u>\$ 14,820,286</u>	<u>\$ 14,248,466</u>	<u>\$ 14,049,960</u>
Plan fiduciary net position as a percentage of Total OPEB Liability		<u>0.64%</u>		<u>1.61%</u>

- (a) In fiscal year 2017, the audited financial statements reflected a misstatement of \$30.8 million in excess employer contributions for the School OPEB Fund. Revised amounts reduced employer contributions and Plan fiduciary net position.
- (b) There was a change that affected measurement of the net OPEB liability since the prior measurement date. The methodology used to determine employee and retiree participation in the School OPEB Fund is based on their current or last employer payroll location. Current and former employees of public school districts, libraries, regional educational service agencies and community colleges are allocated to the School OPEB Fund irrespective of retirement system affiliation.

The affected changes to the net OPEB liability is summarized in the following table (amounts in thousands):

	FY16	FY17
Net OPEB Liability, as Reported	\$ 15,052,262	\$ 14,248,466
Reduction in Net OPEB Liability due to change in Methodology	(231,976)	(229,355)
Restatement of net position for excess employer contributions	-	30,849
Net OPEB Liability, as Restated	\$ 14,820,286	\$ 14,049,960

Actuarial Assumptions

The collective total OPEB liability for the June 30, 2016 and June 30, 2017 measurement dates were determined by an actuarial valuation as of June 30, 2016, with update procedures used to roll forward the total OPEB liability to June 30, 2017. The roll forward calculation adds the annual normal cost (also called service cost), subtracts the actual benefit payments for the same year, and then applies the expected investment rate of return for the period. This actuarial valuation used the following actuarial assumptions:

Inflation	2.75%
Salary Increases:	
ERS	3.25 – 7.00% including inflation
JRS	4.50% including inflation
LRS	None ^(c)
TRS	3.25 – 9.00% including inflation
PSERS	N/A ^(d)
Long-term expected rate of return	3.88% compounded annually, net of investment expense, and including inflation
Healthcare cost trend rate	
Pre-Medicare Eligible	7.75%
Medicare Eligible	5.75%
Ultimate trend rate	
Pre-Medicare Eligible	5.00%
Medicare Eligible	5.00%
Year of Ultimate trend rate	2022

^(c) No salary increase is projected for LRS.

^(d) Salary information is not collected.

Mortality rates were based on the RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale BB as follows:

- For ERS, JRS and LRS members: The RP-2000 Combined Mortality Table projected to 2025 with projection scale BB and set forward 2 years or both males and females is used for the period after service retirement and for dependent beneficiaries. The RP-2000 Disabled Mortality Table projected to 2025 with projection scale BB and set back 7 years for males and set forward 3 years for females is used for the period after disability retirement.
- For TRS members: The RP-2000 White Collar Mortality Table projected to 2025 with projection scale BB (set forward 1 year for males) is used for death after service retirement and beneficiaries. The RP-2000 Disabled Mortality Table projected to 2025 with projection scale BB (set forward two years for males and four years for females) is used for death after disability retirement.
- For PSERS members: The RP-2000 Blue-Collar Mortality Table projected to 2025 with projection scale BB (set forward 3 years for males and 2 years for females) is used for the period after service retirement and for beneficiaries of deceased members. The RP-2000 Disabled Mortality Table projected to 2025 with projection scale BB (set forward 5 years for both males and females) is used for the period after disability retirement.

The actuarial assumptions used in the June 30, 2016 valuation were based on the results of an actuarial experience study for the pension systems, which covered the five-year period ending June 30, 2014.

The remaining actuarial assumptions (e.g., initial per capita costs, health care cost trends, rate of plan participation, rates of plan election, etc.) used in the June 30, 2016 valuation were based on a review of recent plan experience done concurrently with the June 30, 2016 valuation.

Projection of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculation.

The long-term expected rate of return on OPEB plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rate of return for the major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Local Government Investment Pool	100%	3.88%

Discount Rate

In order to measure the total OPEB liability for the School OPEB Fund, a single equivalent interest rate of 3.58% was used as the discount rate. This is comprised mainly of the yield or index rate for 20 year tax-exempt general obligation municipal bonds with an average rating of AA or higher (3.56% per the Bond Buyers Index). The projection of cash flows used to determine the discount rate assumed that contributions from members and from the employer will be made at the current level as averaged over the last five years, adjusted for annual projected changes in headcount. Projected future benefit payments for all current plan members were projected through 2115. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make OPEB payments for inactive employees through year 2029. Therefore, the calculated discount rate of 3.58% was applied to all periods of projected benefit payments to determine the total OPEB liability.

Employers' Net OPEB liability	\$ 16,681,810	\$ 14,049,960	\$ 11,972,897

Sensitivity of the Collective Net OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the collective net OPEB liability of the participating employers, as well as what the collective net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates (amounts in thousands):

	<u>1% Decrease</u>	<u>Current</u> <u>Healthcare Cost</u> <u>Trend Rate</u>	<u>1% Increase</u>

OPEB plan fiduciary net position: Detailed information about the OPEB plan's fiduciary net position is available in the Comprehensive Annual Financial Report (CAFR) which is publicly available at <https://sao.georgia.gov/comprehensive-annual-financial-reports>.

NOTE 4 – COLLECTIVE DEFERRED OUTFLOWS OF RESOURCES, DEFERRED INFLOWS OF RESOURCES AND OPEB EXPENSE

Certain expense items are amortized over closed periods each year, the deferred portions of these items must be tracked annually. If the amounts serve to reduce OPEB expense they are labeled deferred inflows of resources. If they will increase OPEB expense they are labeled deferred outflows of resources. The amortization of these amounts is accomplished on a level dollar basis, with no interest included in the deferred amounts. Experience gains/losses and the impact of changes in actuarial assumptions, if any, are amortized over the average remaining service life of the active and inactive members at the beginning of the fiscal year. Investment gains and losses are amortized over a fixed five year period.

The discount rate has changed since the prior measurement date from 3.07% to 3.58%, resulting in a change of assumptions. Current year changes in the total OPEB liability, due to the change in assumption for the year, are determined by spreading the total change over the average expected remaining service life of the entire Plan membership at the beginning of the measurement period. The average expected remaining service life of active members is the average number of years the active members are expected to remain in covered employment. For the year ended June 30, 2017 this number is 9.6 years. The average expected remaining service life of the inactive members is zero. Therefore, the recognition period is the weighted average of these two amounts, or 6.56 years.
