

Step into the future of healthcare

Walk-ins always welcome.

Sharecare along with SHBP has partnered with OnMed to bring you the care you need, when you need it. Beginning early August, you can check out the OnMed Care Station located at

Twin Towers Buildings, East Tower: 2 MLK Jr Drive, 4th Floor, Atlanta, GA 30334.

With the OnMed Care Station, SHBP members can visit with a clinician, obtain vitals and get e-prescriptions if needed – just like a physician office visit. All at no additional cost to Be Well SHBP® members. Visits are covered for active SHBP state employees who have HEALTH PLAN medical coverage with Anthem Blue Cross and Blue Shield (Anthem), UnitedHealthcare or Kaiser Permanente.

How it works

No appointment needed, just enter the OnMed Care Station and press START. An OnMed clinician will join you immediately via an interactive screen to introduce themselves and walk you through your entire appointment. Your visit will be private, safe and secure AND after you leave, the OnMed Care Station room will automatically clean and sanitize itself for the next patient.

Your vitals matter

OnMed's care visit includes real-time measurements of your key vitals for an accurate diagnosis and treatment experience. Your key health metrics are displayed instantly on the screen.

Prescriptions in minutes

During your visit, OnMed's system will allow the clinician to provide an e-prescription for medications or referral if needed.

Easy access to your records

Your care visit, vitals, medications and more will be automatically added to your Sharecare Health Profile so you can continue to manage your health all in one place. Details will be visible in your Sharecare account within a few weeks of your visit.

Experience Better Health with OnMed + Sharecare

CLEAN
