#### INDEPENDENT AUDITOR'S REPORT

Members of the Board of Community Health and Mr. Russel Carlson, Commissioner Department of Community Health

#### **Opinions**

We have audited the schedule of employer allocations of the Department of Community Health's Georgia State Employees Post-employment Health Benefit Fund (Plan) as of and for the year ended June 30, 2023, and the related notes. We have also audited the totals for the columns titled net other post-employment benefit (OPEB) liability, total deferred outflows of resources, total deferred inflows of resources and total employer OPEB expense (specified column totals) included in the accompanying schedule of OPEB amounts by employer of the Plan, as of and for the year ended June 30, 2023, and the related notes.

In our opinion, the Schedules referred to above present fairly, in all material respects, the employer allocations and net OPEB liability, total deferred outflows of resources, total deferred inflows of resources, and total employer OPEB expense for the total of all participating entities of the Plan as of and for the year ended June 30, 2023 in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Schedules* section of our report.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Responsibilities of Management for the Schedules

Management is responsible for the preparation and fair presentation of the schedule of employer allocations and the schedule of OPEB amounts by employer (collectively, the Schedules) in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the Schedules that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibilities for the Audit of the Schedules

Our objectives are to obtain reasonable assurance about whether the Schedules are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the Schedules.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the Schedules, whether due to fraud or
  error, and design and perform audit procedures responsive to those risks. Such procedures
  include examining, on a test basis, evidence regarding the amounts and disclosures in the
  Schedules.
- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of expressing an
  opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is
  expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant
  accounting estimates made by management, as well as evaluate the overall presentation of the
  Schedules.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

#### Other Matter

We have audited, in accordance with auditing standards generally accepted in the United States of America, the State of Georgia's basic financial statements, which includes the Plan, as of and for the year ended June 30, 2023. Our report thereon, dated January 31, 2024, expressed unmodified opinions on the financial statements for all opinion units except for the business-type activities and the unemployment compensation fund, on which we expressed no opinions.

#### Restriction on Use

Our report is intended solely for the information and use of the Plan's management, the Board of Community Health, the Plan employers and their auditors and is not intended to be and should not be used by anyone other than these specified parties.

Respectfully submitted,

Lugs Life.

#### NOTE 1 - PLAN DESCRIPTION

The Georgia State Employees Postemployment Health Benefit Fund (State OPEB Fund) is a cost-sharing multiple-employer defined benefit postemployment healthcare plan (Plan) as defined in Governmental Accounting Standards Board (GASB) Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. Employees of State organizations as defined in §45-18-25 of the *Official Code of Georgia Annotated* (O.C.G.A.) are provided Other Post-Employment Benefits (OPEB) through the State OPEB Fund. The State OPEB Fund is reported as an employee benefit trust fund and is administered by the Board of Community Health (Board) that is comprised of nine members, including former State of Georgia employees and industry professionals. Title 45 of the *O.C.G.A.* assigns the authority to establish and amend the benefit terms of the group health plan to the Board.

The State OPEB Fund provides healthcare benefits for retirees and their dependents due under the group health plan for employees of State organizations (including technical colleges) and other entities authorized by law to contract with the Department of Community Health (DCH) for inclusion in the plan. Retiree medical eligibility is attained when an employee retires and is immediately eligible to draw a retirement annuity from Employees' Retirement System (ERS), Georgia Judicial Retirement System (JRS), Legislative Retirement System (LRS), Teachers Retirement System (TRS) or Public School Employees Retirement System (PSERS). If elected, dependent coverage starts on the same day as retiree coverage. Medicare-eligible retirees are offered Standard and Premium Medicare Advantage plan options. Non-Medicare eligible retiree plan options include Health Reimbursement Arrangement (HRA), Health Maintenance Organization (HMO) and a High Deductible Health Plan (HDHP). The State OPEB Fund also pays for administrative expenses of the fund. By law, no other use of the assets of the State OPEB Fund is permitted.

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Basis of Presentation

The Schedule of Employer Allocations and Schedule of OPEB Amounts by Employer (collectively, the Schedules) present amounts that are elements of the financial statements of the State OPEB Fund or its participating employers. Accordingly, they do not purport to be a complete presentation of the financial position or changes in financial position of the State OPEB Fund. The amounts presented in the Schedules are prepared in accordance with U.S. generally accepted accounting principles. Such preparation requires management of the State OPEB Fund to make a number of estimates and assumptions relating to the reported amounts. Due to the inherent nature of these estimates, actual results could differ from those estimates.

The Schedule of OPEB Amounts by Employer does not contain deferred outflows of resources or deferred inflows of resources related to contributions made by employers after the measurement date. Such information will be provided by the Department of Community Health (DCH) to the participating employers and available on the DCH website.

Notes to the Schedules of Employer Allocations And OPEB Amounts by Employer As of and for the Year Ended June 30, 2023

Allocation Methodology

GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefit Plans Other Than Pensions, requires participating employers in the State OPEB Fund to recognize their proportionate share of the collective net OPEB liability, collective deferred outflows of resources, collective deferred inflows of resources, and collective OPEB expense. The employer allocation percentages presented in the Schedule of Employer Allocations and applied to amounts presented in the Schedule of OPEB Amounts by Employer are based on the ratio of each employer's contribution to the State OPEB Fund during the measurement period July 1, 2022 through June 30, 2023 for the fiscal year 2023. Consistent with GASB Statement No. 75, paragraph 59(a), employer proportions are determined as a measure of the proportionate relationship of the employer to all employers consistent with the manner in which contributions to the OPEB plan are determined. Employer contribution amounts billed by the State Health Benefit Plan are used as the basis to allocate the employer's contribution to the State OPEB Fund. Contributions from the employers contributing entities are recognized when due, based on statutory requirements and is substantially funded on a pay-as-you-go basis; that is, annual cost of providing benefits will be financed in the same year as claims occur.

The methodology used to determine active employee participation in the State OPEB Fund is based on their current employer payroll location, if available, with payroll locations less than 60000 designated as State. When unavailable, it is based upon a review of their pension system, pension Department, and pension System code. The methodology used to determine retiree participation in the State OPEB Fund is based on their last employer payroll location, if available. When unavailable, it is based upon a review of their historical classification in conjunction with any other available employer payroll location information.

Total contributions presented in the schedule of employer allocations to those reported in the State OPEB Fund statement of changes in fiduciary net position for the year ended June 30, 2023 is as follows (amounts in thousands):

FY23

Total employer contributions per audited financial statements \$ 177,693

### NOTE 3 - COLLECTIVE NET OPEB LIABILITY AND ACTUARIAL ASSUMPTIONS AND METHODS

The components of the collective net OPEB liability of the participating employers at June 30, 2023 were as follows (amounts in thousands):

	_	FY23
Total OPEB liability	\$	2,314,186
Plan fiduciary net position	_	2,030,744
Employers' net OPEB liability	\$ <b>_</b>	283,442
Plan fiduciary net position as a percentage of potal OPEB liability	_	87.75%

#### Actuarial Assumptions

The collective total OPEB liability for the June 30, 2023 measurement date was determined by an actuarial valuation as of June 30, 2022, with update procedures used to roll forward the total OPEB liability to June 30, 2023. The roll forward calculation adds the annual normal cost (also called service cost), subtracts the actual benefit payments for the same year, and then applies the expected investment rate of return for the period. This actuarial valuation used the following actuarial assumptions:

Inflation	2.50%
Salary increases	3.00 - 6.75% including inflation
Long-term expected rate of return	7.00% compounded annually, net of investment expense, and including inflation
Healthcare cost trend rate	7.00%
Ultimate trend rate	4.00%
Year of ultimate trend rate	2032

Pre-retirement mortality rates were based on the Pub-2010 General Employee Mortality Table, with no adjustment, with the MP-2019 Projection scale applied generationally. Post-retirement mortality rates for service retirements were based on the Pub-2010 General Healthy Annuitant Mortality Table (ages set forward one year and adjusted 105% for males and 108% for females) with the MP-2019 Projection scale applied generationally. Post-retirement mortality rates for disability retirements were based on the Pub-2010 General Disabled Mortality Table (ages set back three years for males and adjusted 103% for males and 106% for females) with the MP-2019 Projection scale applied generationally. Post-retirement mortality rates for beneficiaries were based on the Pub-2010 General Contingent Survivor Mortality Table (ages set forward two years and adjusted 106% for males and 105% for females) with the MP-2019 Projection scale applied generationally.

Notes to the Schedules of Employer Allocations And OPEB Amounts by Employer As of and for the Year Ended June 30, 2023

The actuarial assumptions used in the June 30, 2022 valuation are based on the results of the most recent actuarial experience studies for the pension systems, which covered the five-year period ending June 30, 2019 and adopted by the pension Board on December 17, 2020.

The remaining actuarial assumptions (e.g., initial per capita costs, health care cost trends, rate of plan participation, rates of plan election, etc.) used in the June 30, 2022 valuation were based on a review of recent plan experience done concurrently with the June 30, 2022 valuation.

Projection of benefits for financial reporting purposes are based on the substantive plan (the Plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculation.

The long-term expected rate of return on OPEB plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for the major asset class is summarized in the following table:

Asset class	Target allocation	Long-Term Expected Real Rate of Return*
Fixed Income	30.0%	1.5%
Equities	70.0%	9.4%
Total	100.00%	

<sup>\*</sup>Net of Inflation

Beginning in fiscal year 2018, the State OPEB fund updated their investment strategy to a more long-term approach, investing more in domestic and international stocks.

#### Discount Rate

In order to measure the total OPEB liability, as of June 30, 2023, for the State OPEB fund, a discount rate of 7.00% was used, the same as last year's rate. The projection of cash flows used to determine the discount rate assumed that contributions from members and from the employer will be made at the current level as averaged over the last five years, adjusted for annual projected changes in headcount. Based on those assumptions, the fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on investments was applied to all periods of projected benefit payments to determine the total OPEB liability. Projected future benefit payments for all current plan members were projected through 2122.

Sensitivity of the Collective Net OPEB liability to Changes in the Discount Rate

The following presents the collective net OPEB liability of the participating employers calculated using the discount rate of 7.00% as well as what the collective net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00%) or 1-percentage-point higher (8.00%) than the current discount rate (amounts in thousands):

		Current						
		1% Decrease		Discount Rate		1% Increase		
	_	(6.00%)		(7.00%)		(8.00%)		
Collective net OPEB liability	\$	507,968	\$	283,443	\$	89,992		

Sensitivity of the Collective Net OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the collective net OPEB liability of the participating employers, as well as what the collective net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates (amounts in thousands):

		Current						
				Healthcare				
				Cost Trend				
	_	1% Decrease		Rate		1% Increase		
Collective net OPEB liability	\$	59,184	\$	283,443	\$	546,769		

**OPEB plan fiduciary net position:** Detailed information about the OPEB plan's fiduciary net position is available in the 2023 State of Georgia Annual Comprehensive Financial Report which is publicly available at: <a href="https://sao.georgia.gov/statewide-reporting/acfr">https://sao.georgia.gov/statewide-reporting/acfr</a>.

### NOTE 4 - COLLECTIVE DEFERRED OUTFLOWS OF RESOURCES, DEFERRED INFLOWS OF RESOURCES AND OPEB EXPENSE

Certain expense items are amortized over closed periods each year, the deferred portions of these items must be tracked annually. If the amounts serve to reduce OPEB expense they are labeled deferred inflows of resources. If they will increase OPEB expense they are labeled deferred outflows of resources. The amortization of these amounts is accomplished on a level dollar basis, with no interest included in the deferred amounts. Experience gains/losses and the impact of changes in actuarial assumptions, if any, are amortized over the average remaining service life of the active and inactive members at the beginning of the measurement period. Investment gains and losses are amortized over a fixed five-year period.

The discount rate remained the same as the prior measurement date at 7.00%. Current year changes in the total OPEB liability due to a change in assumption for the year, are determined by spreading the total change over the average expected remaining service life of the active and inactive members at the beginning of the measurement period. The average expected remaining service life of active members is the average number of years the active members are expected to remain in covered

Notes to the Schedules of Employer Allocations And OPEB Amounts by Employer As of and for the Year Ended June 30, 2023

employment. For the year ended June 30, 2023 this number is 7.61 years. The average expected remaining service life of the inactive members is zero. Therefore, the recognition period is the weighted average of these two amounts, or 4.13 years.

The following presents a summary of changes in the collective deferred outflows of resources and deferred inflows of resources for the year ended June 30, 2023 (amounts in thousands):
